ART UNIT PAPER NUMBER

2617 DATE MAILED: 12/03/2009

APPLICATION NO.	FILING DATE	FIRST NAMED INVENTOR	ATTORNEY DOCKET NO.	CONFIRMATION NO.
09/843.536	04/25/2001	Todd A. Newville	30032-006001	7416

TITLE OF INVENTION: INFORMATION PORTAL

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	03/03/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or <u>Fax</u> (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1131 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1131 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Faustino Lichauco (Reg. No. 41,942) on 10/26/09.

The claims have been amended as follows:

1. (Currently Amended) A communication system comprising:

a stationary transceiver defining an information portal in a vicinity thereof, the stationary transceiver being disposed at a location selected from the group consisting of an elevator, a building lobby, and a vehicle; and

a local server in communication with said transceiver, said local server being configured

to respond to entry of a mobile processing-system present within said information portal, and

to provide, to said mobile processing system, data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal.

2. (Previously Presented) A communication system comprising

Art Unit: 2617

a stationary transceiver defining an information portal in a vicinity thereof;

a local server in communication with said transceiver, said local server being configured

to identify and respond to a mobile processing-system present within said information portal, and

to perform a function on the basis of the identity of said mobile processing-system, said function being selected from the group consisting of:

permitting building access to a portion of said building; and controlling an elevator in said building.

3.-5. (Cancelled)

- 6. (Original) The communication system of claim 2, further comprising an access control unit in communication with said local server, said access control unit being controlled by said local server on the basis of the identity of said mobile processing-system.
- 7. **(Original)** The communication system of claim 1, wherein said stationary transceiver is selected from the group consisting of a radio transceiver, an optical transceiver, an infrared transceiver, and an acoustic transceiver.
- 8. (Cancelled)
- **9. (Original)** The communication system of claim **1**, wherein said local server and said stationary transceiver are in communication across a local area network.

Application/Control Number: 09/843,536

Art Unit: 2617

10. (Original) The communication system of claim **1**, wherein said local server and said stationary transceiver are in wireless communication across a local area network.

Page 4

- 11. (Original) The communication system of claim 1, further comprising a fulfillment server in communication with said local server, said fulfillment server having access to a wide area network.
- **12. (Original)** The communication system of claim **11**, wherein said local server comprises a cache for temporary accumulation of information from said fulfillment server to be relayed to said mobile processing system.
- **13**. **(Original)** The communication system of claim **11**, wherein said wide area network comprises a global computer network.
- 14. (Original) The communication system of claim 11, wherein said fulfillment server includes a user-interface for enabling a user to cause said fulfillment server to collect selected information.
- 15. (Original) The communication system of claim 14, wherein said fulfillment server is configured to provide said selected information to said local server when said local server identifies, within said information portal, a mobile processing unit associated with said user.
- 16. (Original) The communication system of claim 14, wherein said fulfillment server includes a user-interface for enabling a user to cause said fulfillment server to detect an occurrence of a condition.
- 17. (Original) The communication system of claim 16, wherein said fulfillment server is configured to provide information indicative of an occurrence of said condition to said local server when said local server identifies, within said information portal, a mobile processing unit associated with said user.

Art Unit: 2617

18. (Original) The communication system of claim **16**, wherein said fulfillment server is configured to provide interactive services to said mobile processing unit.

19. (Currently Amended) A communication system comprising:

a plurality of stationary transceivers, each configured for wireless communication with a mobile processing system present in a corresponding information portal, the stationary transceivers being disposed at locations selected from the group consisting of an elevator, a building lobby, and a vehicle; and

a server system in communication with each of said stationary receivers, said server system having a link to a global computer network and thereby providing said mobile processing system with wireless access to said global computer network said server system including a server configured to provide, to said mobile processing system, in response to entry of said mobile processing system into an information portal, data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal.

20. (Currently Amended) A method for providing a mobile processing system with wireless access to a global computer network, said method comprising:

maintaining an information portal, the information portal being disposed at a location selected from the group consisting of an elevator, a building lobby, and a vehicle;

establishing wireless communication between said mobile processing system and a server system following entry of said mobile processing system into said information portal; and

Art Unit: 2617

causing data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal to be provided to said mobile processing system, in response to entry of said mobile processing system into said information portal.

21. A communication system comprising:

a stationary transceiver defining an information portal in a vicinity thereof, the stationary transceiver being disposed at a location selected from the group consisting of an elevator; and

a local server in communication with said transceiver, said local server being configured

to respond to entry of a mobile processing-system present within said information portal, and

to provide, to said mobile processing system, data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal.

22. A communication system comprising:

a stationary transceiver defining an information portal in a vicinity thereof, the stationary transceiver being disposed at a location selected from the group consisting of a building lobby; and

a local server in communication with said transceiver, said local server being configured

to respond to entry of a mobile processing-system present within said information portal, and

Application/Control Number: 09/843,536

Art Unit: 2617

to provide, to said mobile processing system, data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal.

Page 7

23. A communication system comprising:

a stationary transceiver defining an information portal in a vicinity thereof, the stationary transceiver being disposed at a location selected from the group consisting of a vehicle; and

a local server in communication with said transceiver, said local server being configured

to respond to entry of a mobile processing-system present within said information portal, and

to provide, to said mobile processing system, data previously requested for said mobile processing system prior to entry of said mobile processing system into said information portal.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 3-5, 8 are cancelled.

Claims 1-2, 6-7, 9-23 (renumbered as 1-19 respectively) are patentable.

The entire prior-art combination **disclosed** (in the office-actions of this case) fails to anticipate or render the claimed limitations in combination with all the recited limitations of the

disclosed independent claims obvious (viewed the entire claim as a whole), over any of the prior art of record, alone or in combination.

Consequently, the disclosed independent claims are allowed on behalf of above-discussed reasons, and also preserved via Applicants arguments and remarks filed on 07/16/2008 as well. Since the disclosed dependent claims are dependent on one of the above independent claims, therefore they are also patentable.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sharad Rampuria whose telephone number is (571) 272-7870. The examiner can normally be reached on M-F. (8:30-5 EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dwayne Bost can be reached on (571) 272-7023. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
